

## Charity Money

You should donate your money to Make a Wish foundation. I strongly believe in this foundation because it helps very ill children get to experience their hopes and dreams.

I can relate to the families of the Make a Wish children. I have a family member who experienced a wish from Make a Wish. It must be hard to deal with a life threatening illness that at any point in time something could go wrong.

There is a day called the "Truck to Convey." This event happens every Mothers day. This gives the "Wish kids" a day to boast themselves a steam by forgetting about every thing and just having fun.

You should donate your charity money to Make a Wish foundation because it helps kids with life threatening illness experience their hopes and dreams.
